NOUVEAU

original pattern by Theodoor Nieuwenhuis

What began as a gentlemen's club in the heart of Amsterdam at the end of the 18th century, has now become a modern venue for professionals to relax or talk business. Housed in a listed building in the heart of Amsterdam dating from 1916, the interior still retains many art nouveau features, including textile wall panels designed by Theodoor Nieuwenhuis. As part of an extensive refurbishment, ZZDP Architects chose two original Nieuwenhuis designs from the TextielMuseum collection to develop a new fabric inspired by the original patterns. The panels capture the spirit of the authentic interior, adding a modern twist.
